About Us

Your success is our mission.

Founded in 2024, Garnet CS empowers small and medium-sized businesses with exceptional web application development and IT operations support. We specialize in turning ideas into reality —designing, building, and maintaining solutions tailored to your needs. As a team of two seasoned professionals with diverse expertise, we bring a goal-oriented approach to every project, exceeding expectations. Whether you need technical advice, team-building support, or a reliable partner to manage your IT and development, Garnet CS is here to help. If you lack the right team, we'll help you build it or find the talent to bring your vision to life. At Garnet CS, your success is our mission. Let's build your future together.

WHERE WE COME FROM

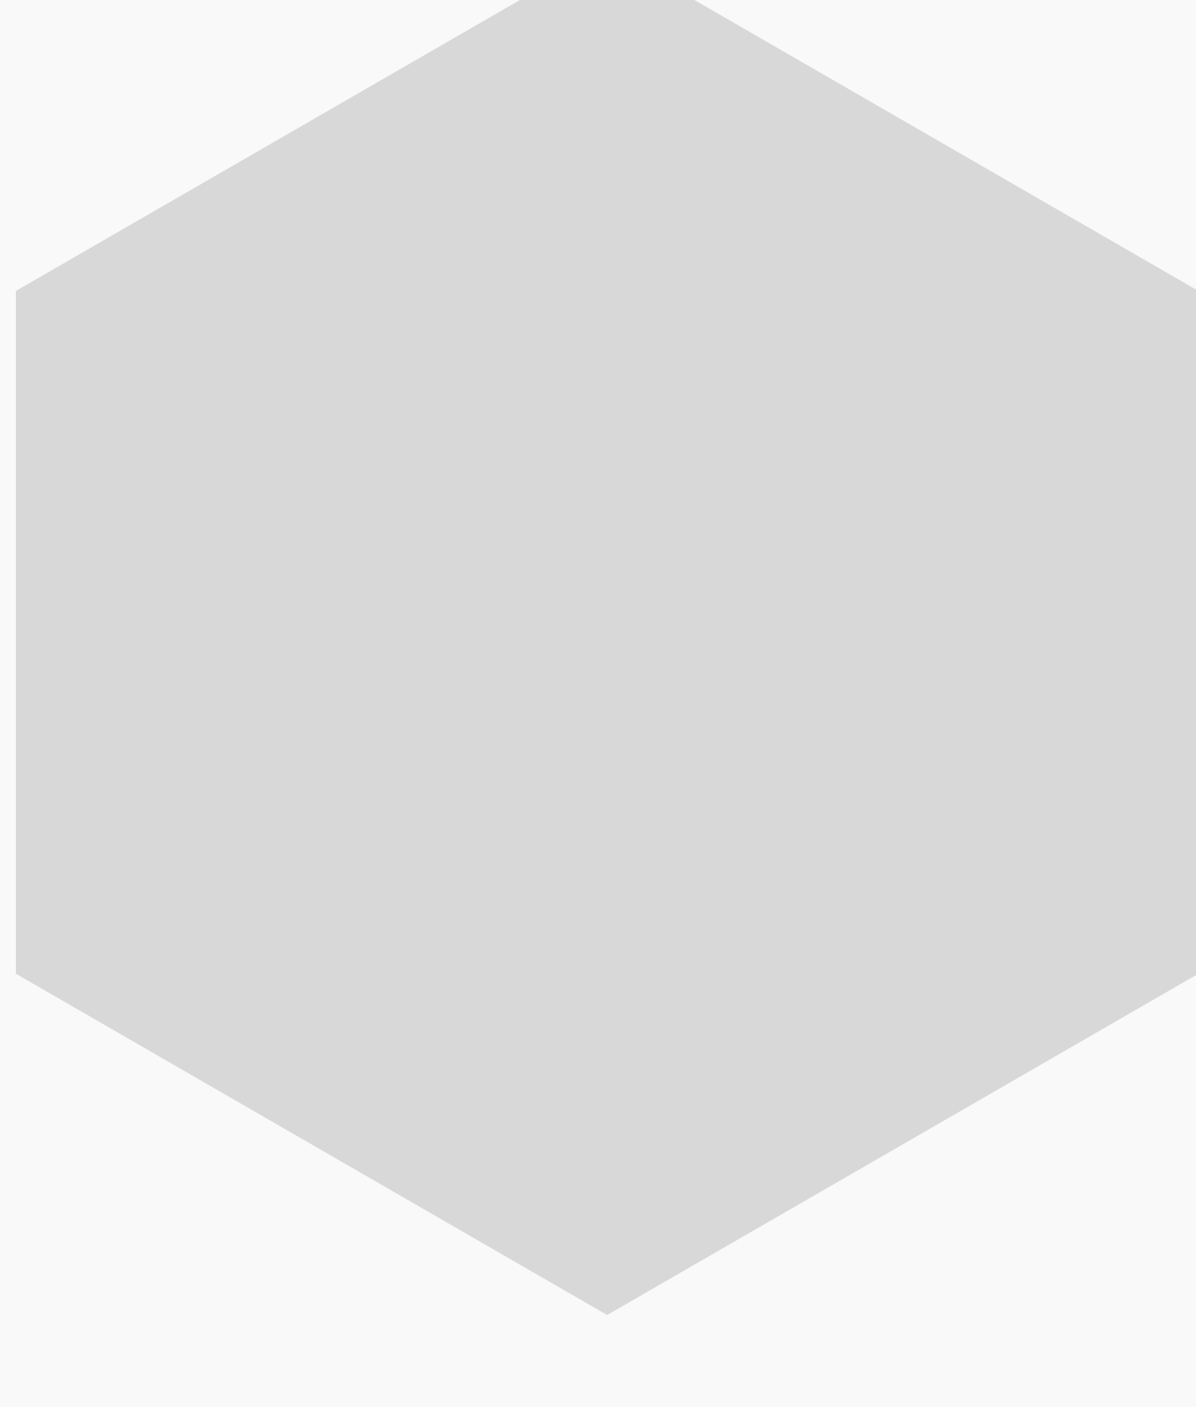

Our Expertise in Application Development and Cloud infrastructure.

Fintech Innovations

Payment Acceptance

We contributed to the design, development, and maintenance of AWS Cloud infrastructure for a groundbreaking Phone Payment Acceptance solution. This included implementing advanced end-to-end encryption to secure credit card transactions and hosting a secure Proof of Concept (PoC) application. The success of this solution led to its acquisition and global implementation, showcasing our ability to deliver secure and scalable cloud solutions. (Mobeewave).
